Celebrating 125 Years

What a very eventful week celebrating Alma’s 125th birthday! This week at Bugdlie our focus has been to reminisce about the good old days.

It was great to have so many students bring in a toy from their past for our group discussion. The children were very descriptive as they told us a story about their treasured possessions. We had toys come in that were children’s favourite from last year. Others brought toys in from when they were a baby and some even brought toys that were given in anticipation of their birth.

The events at Alma on Friday and Saturday were spectacular. The old fashion games were the most popular with the preschoolers, even in the heat.

Everyone looked so good in their dress ups on Friday and the classrooms were decorated beautifully. Saturday was just as wonderful. Bugdlie preschoolers sang magnificently. It was fantastic to see so many families from the past, present and even future attend these special days. I hope everyone who attended had as much fun as I know the staff and students did.

To do

• If you have been contacted about your immunisation records or birth certificates please ensure that you bring them to school for copying as soon as possible.
• Our town library program is on this week. Please remember to pack a library bag. Please also remember to bring back your child’s library book if you have taken it home.
• When arriving and leaving preschool school, please ensure that both front gates at Bugdlie are closed securely behind you.
• At this stage Sci world has been cancelled. I am still in negotiations but it doesn’t look good. More information or a refund will be coming to you shortly.
• Donations of new toys and money are being collected for life line and the Ulysses Toy run. Any donations will be appreciated by those in need this Christmas. Donations can be delivered to the Alma Public School administration office.

IMPORTANT - If your child has an allergy, asthma or a medical condition, please provide a copy of an up to date action plan to the preschool to ensure the best care for your child.
