The Bugdlie children have already proven to be quite aware of the environment. We are starting a unit on sustainability and we have begun by exploring the symbolism of the different colours of the bins. The children have enjoyed sorting different items into different coloured bins and it hasn’t taken long for them to work out where items go. We have had some very creative children turning our recycle items into new things. Nate built a train costume, Sean made himself a new hat and Peyton made a treasure box. All the children have really taken the concept of turning old things into new things on board.

There have been many questions posed that we will explore over the coming weeks. Kaitlin asked, “What happens to the rubbish after it’s taken to the dump?” Mason asked, “Why do we have to sort the rubbish?” Lucas asked, “How does a garbage truck work?” Lucy wanted to know why we can’t put food scraps with the yellow bin recycling.

It would be wonderful if you could continue the conversations at home, practice sorting different items into different attributes and provide opportunities for children to turn old items into new ones.

Special Events

Reduce Reuse & Recycle

To do
- To reduce our waste we are going to start implementing “NUDE FOOD” in Term 3. Please start to think of creative ways to pack healthy fresh food with no throw away wrapping.
- Remember if you would like an update on your child development, Gemma is holding parent interviews over the next few days. Please return your booking note to school as soon as possible.
- NAIDOC products are for sale. They will be ready for our NAIDOC celebrations, with Alma Week 3 Term 3.
- It would be fantastic if you could collect any recyclables and bring them into school for our craft. A big thank you to those who have already donated 😊
